## 311 - ACADEMIC FREEDOM

## A. Professional

There are basic rules all teachers must follow. Within this framework, considerable leeway in originality and private initiative is possible. The personality of the instructor, is therefore, not straight jacketed and only when individual methods violate general rules necessary for the orderly conduct of the school should the administrator insist on conformity. Persistent non-conformity should be reported to the Board for further action.

Adopted: September 26, 1988

CROSS REF.: Current Professional Staff Contract

## 321 – SCHOOL YEAR

The school year will consist of a minimum of 180 days when students are present for school activities. A maximum of 5 days may be counted to meet this requirement if they are used for parent conferences or if school is closed by the school administrator because of inclement weather closes school.

### 322 – SCHOOL DAY

The length of the school day will be from 7:45 AM to 3:30 PM with a minimum of thirty minutes for lunch.

Within this time limit, the various grades will be scheduled for the following minimum times:

ELD - 437 hours annually 4K - 437 hours annually Grades K-6 - 1050 hours annually Grades 7-12 - 1137 hours annually

In computing the minimum number of instructional hours under this subdivision, days and parts of days on which parent and teacher conferences are held, staff development or in-service programs are held, schools are closed for inclement weather, or when classes are not held may not be counted.

## 323.2 – PATRIOTIC OBSERVANCES

It is the philosophy of the Board of Education that patriotic observances of our country shall be a part of the instructional program.

In accordance with state law, each school shall display the flag of the United States in each classroom or from a flagstaff on each school ground during the school hours of each school day.

Every public school in the state is required by section 118.06(2) of the state statutes to offer the pledge of allegiance or the national anthem in grades one to twelve each school day. No pupil may be compelled, against the pupil's objections or those of the pupil's parents or guardian, to recite the pledge or sing the anthem.

Schools may choose to offer the pledge of allegiance more often or under other circumstances at their discretion.

Adopted: May 29, 2001 Revised: November 26, 2001

## 323.3 – HOLIDAYS ASSOCIATED WITH RELIGION

The Algoma School District is committed to an integrated multicultural curriculum. Holidays associated with religion sometimes have cultural significance. The cultural expressions about holidays associated with religion may be taught in the classroom as port of an integrated multicultural curriculum.

The classroom teacher shall determine, within the normal process of the District, whether and how to help students learn about holidays associated with religion. The curriculum and related activities shall be inclusive of all students and conform to the Board's policy on controversial issues

Any school wide activity that relates to holidays associated with religion shall have a secular educational purpose, shall not advance or inhibit religion, shall avoid excessive entanglement with religion, and shall not violate the Wisconsin Constitution's prohibition of religious or sectarian instruction.

## **Guidelines**

The Algoma School District population includes students from many religious belief systems, as well as students who do not believe in religion. The District respects the right of parents to educate their children in spiritual and religious matters, including the interpretation of the spiritual significance of religious holidays. Celebrating religious holidays is the responsibility of families and religious institutions.

Teachers may choose to teach or not to teach about holidays associated with religious traditions. These guidelines will assist teachers who choose to teach about these traditions by appropriately balancing this teaching with the District's commitment to provide an inclusive environment where diversity is acknowledged and appreciated.

- 1. <u>Student-initiated activities.</u> Classrooms should reflect a climate where cultural, religious and non-religious differences are respected and self-expression is encouraged. All children should feel that their traditions will be respected and valued. All students can participate in sharing activities and learn from one another regardless of their religious or non-religious beliefs and traditions.
  - Opportunities for self-expression will promote positive self-esteem and enhance a sense of belonging. In the classroom children can express their interest in a variety of ways through themes for art work and writing projects, as well as literature and music selections.
- 2. <u>Teacher-initiated activities.</u> Teachers shall make the decision whether or not to teach about holidays associated with religious traditions as part of their overall curriculum. This part of the curriculum shall be governed by the Board's policy on controversial issues.

In choosing holiday activities designed to foster appreciation of diversity, teachers should assume diversity exists among their students and consider the social, emotional and cognitive development of their students. If any chosen holiday has religious significance for some, care should be taken that the activities do not require students to celebrate the holiday, express assent to a particular belief system, or participate in ceremonies traditionally performed in faith communities.

Teachers will avoid emphasis on information or activities related to any one religious tradition. Information and activities, classroom decorations or displays will reflect a balance of cultural diversity.

Information or activities that are provided by the teacher and are related to a holiday associated with religion shall:

- a. be within the context of the curriculum;
- b. have a secular educational purpose;
- c. adhere to the principles of multicultural education;
- d. not advance or inhibit religion; and
- e. avoid excessive entanglement with religion.
- 3. <u>Music.</u> Much of the inspiration for the world's greatest artists and composers had its basis in religion. The study of their works does not imply or require acceptance of the composer's religious beliefs. Music teachers are expected to seek a balance of musical selections from different cultures and provide instruction in music that can be appreciated by diverse community.

Activities, such as singing holiday songs, should be presented in an educational context, including information on the history and cultural traditions associated with the songs. Activities should be developed based on the assumption of cultural pluralism rather than on the assumption that all share similar religious beliefs or have similar knowledge or cultural traditions.

The opportunity for student performance is an important part of our music curriculum. Some of these opportunities will be at functions primarily inspired by holidays, i.e., winter parties or singing in the malls. The teacher must apply these guidelines in terms of inclusiveness, lack of excessive attention, dignity, and educational context. Though these performances are acceptable, they should be balanced with performances for purely secular activities. Student participation in performances inspired by holidays associated with religion must be optional.

Adopted: May 29, 2001

## 323 – SCHOOL CEREMONIES AND OBSERVANCES

District schools are authorized to conduct ceremonies and observances to recognize special events, historical heritage, and traditional holidays provided they are in keeping with the school district goals and curricular objectives. It is, however, recognized that the religious beliefs of some students may prohibit their participation in certain exercises. Students may be excused from the school ceremonies and observances if the request is made by the parent and if the ceremony or observance violates a religious belief, family standard or tradition.

So that parents and students are aware of this policy, building principals will include this policy in the student handbook or explain this policy in a parent newsletter before the start of the school year.

Adopted: May 29, 2001

## 333.1 – PARENT ACCESS TO THE CURRICULUM AND INSTRUCTIONAL MATERIALS

Parents/guardians play an important and unique role in the education of their children. To facilitate parent knowledge about the appropriateness for their child of any or all aspects of the curriculum, a parent/guardian may contact the building principal to request that a District staff member provide the parent/guardian with information about any program, course, unit of study, specific assignment or teaching method.

Parents/guardians may also contact the building principal to review the instructional materials that will be used in any course or program. If there are questions or concerns, the principal and parent/guardian will discuss possible solutions.

Cross Reference: No Child Left Behind Act of 2001

Adopted: September 23, 2002

#### 333.2 – STUDENT SURVEYS

The School Board respects the privacy rights of parents and their children. No student shall be required to participate in any survey associated with a school program or the District's curriculum, or which is administered by a third party in the schools, if the survey includes one or more of the following items:

- political affiliations or beliefs of the student or the student's parent;
- mental and psychological problems of the student or the student's family:
- sex behavior or attitudes;
- illegal, anti-social, self-incriminating or demeaning behavior;
- critical appraisals of other individuals with whom students have close family relationships;
- legally recognized privileged or analogous relationships such as those of lawyers, physicians and ministers;
- religious practices, affiliations or beliefs of the student or the student's parent; or
- income, other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program.

The building principal shall notify parents/guardians at the beginning of each school year of the specific or approximate dates during the school year when such survey activities are scheduled involving their children. Parents/guardians shall be given the opportunity to request that their child not participate in a survey containing the above information. If a survey containing any of the above information is funded in whole or in part by a program administered by the U.S. Department of Education, written consent shall be obtained form the student or, in the case of a minor student, the student's parent/guardian before the student participates in the survey.

Parents/guardians may, upon request, inspect a survey containing any of the above information and any survey created by a third party before the survey is administered or distributed to a student. They may also request to inspect any instructional materials used in connection with the survey or any instructional material used as part of the educational curriculum for the student. Requests to inspect a survey or instructional materials should be made to the building principal or his/her designee. Survey inspection requests should be made prior to the date in which the survey is scheduled to be administered to students. The principal or designee shall respond to such requests without delay.

This policy shall be published annually in student and staff handbooks, which are distributed to students, parents/guardians and employees in the District.

CROSS REFERENCE: No Child Left Behind Act of 2001.

Adopted: September 23, 2002

#### 333-PARENT RIGHTS AND DISTRICT PROGRAMS/ACTIVITIES

Parent/guardians may inspect, request, any instructional material used as part of the educational curriculum for students. In addition, parents/guardians may deny their child's participation in certain District educational programs or activities in accordance with state and federal laws and regulations.

Specifically, parent/guardians may:

- (1) Request that their child not participate in 4<sup>th</sup>, 8<sup>th</sup>, or 10<sup>th</sup> grade state assessments.
- (2) Request that their child not participate in instruction in human growth and development or instruction in certain health-related subjects (physiology and hygiene, sanitation, the effects of controlled substances and alcohol upon the human system, symptoms of disease and the proper care of the body.)
- (3) Request that their child not participate in any survey administered or distributed to students in the schools that reveals information concerning any of the following:
  - political affiliations or beliefs of the student or the student's parent;
  - mental and psychological problems of the student or the student's family;
  - sex behavior or attitudes;
  - illegal, anti-social, self-incrimination or demeaning behavior;
  - critical appraisals of other individuals with whom students have close family relationships;
  - legally recognized privileged or analogous relationships such as those of lawyers, physicians and ministers;
  - religious practices, affiliations or beliefs of the student or student's parent; or
  - income, other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program.

Parent/guardians may inspect, upon request, any survey containing items related to any of the above information and any survey created by a third party, as well as any instructional materials used in connection with any such survey. If a survey containing any of the above information is funded in whole or in part by any program administered by the U.S. Department of Education, written consent shall be obtained from the student or, in the case of a minor student, the student's parent/guardian before the student participates in the survey.

(4) Request that their child not participate in any activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or selling that information, or otherwise providing that information to others for that purpose. "Personal information:" includes individually identifiable information such as a student's or parent's first and last name, address, telephone number or Social Security identification number. Upon request, parent/guardians may inspect any instrument used in the collection of

personal information from students for marketing or selling purposes before the instrument is administered or distributed to students.

(5) Request that their child not participate in any non-emergency, invasive physical examination or screening that is: (a) required as a condition of attendance, (b) administered by the school and scheduled by the school in advance, and (c) not necessary to protect the immediate health and safety of the student, or of other students. "Invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion or injection in the body, but does not include a hearing, vision or scoliosis screening.

Parents/guardians shall be informed at the beginning of the school year of the specific or approximate dates during the school year when activities outlined in items (3), (4) and (5) are scheduled to take place and shall be given the opportunity to request that their child not participate in such activities.

Parents/guardians shall make any of the above requests, in writing, to the building principal or designee. All requests will be judged individually based upon state and federal guidelines. The principal or designee shall respond to such requests in a timely manner.

The District shall inform parents/guardians of this policy at the beginning of each school year.

## 341.3 - HUMAN GROWTH & DEVELOPMENT INSTRUCTION

Major public health problems such as suicide, accidents, venereal disease, heart disease, obesity, alcohol and other drug abuse, along with health misconceptions, the lack of accurate health information and the continuing rise in cost of health care are but a few of the reasons for health education programs in our schools. While recognizing the fact that many of these problems are preventable through positive health practices, we believe that health education can prevent health problems and improve our quality of life and total well being.

A comprehensive health education curriculum taught by well-prepared teachers with adequate time and material will diminish the need for crisis-oriented programs in one area while providing flexibility to adjust to new demands. It is this health programs intent to motivate individuals to take responsibility for protecting and improving their health and to promote positive health practices. These individuals will have to make health decisions throughout their entire lives. Our aim is to provide a sound framework from which these decisions can be made.

Annually the classroom teacher will provide parents with an outline of the human growth and development curriculum used at their child's grade level. Individuals interested in inspecting the actual curriculum and instructional materials shall contact the building principal to schedule a meeting with the human growth and development teachers.

Health education shall be provided in accordance with state law.

## 342.11 - INDEPENDENT EDUCATIONAL EVALUATION POLICY

Parents of a student with a disability have a right to obtain an independent educational evaluation if they disagree with the district's evaluation. An independent educational evaluation (IEE) is a publicly funded evaluation conducted by a qualified examiner who is not employed by the district. Publicly funded means that the district either pays for the full evaluation or ensures that the evaluation is otherwise provided at no cost to the parent. For purposes of this policy, educational evaluation means procedures to determine whether the child:

- has a disability, as defined by the Individual Disabilities Education Act (IDEA);
- is eligible for special education; and,
- if eligible, the nature and extent of special education and related services that are required.

Procedures for educational evaluations are described in 34 CFR 300.530-536. Criteria specific to independent evaluations are provided in 34CFR 300.502-507.

To qualify as a publicly funded IEE, the district must receive the request within one year from the date of the contested district evaluation. The district will consider requests after this time period if unique circumstances exist. Upon receiving a request, the district will either request a due process hearing to defend its evaluation or provide written notice to the parents that it has received and conditionally approves the request. The written notice will contain information regarding the district's criteria for independent educational evaluations. The criteria will include, but will not be limited to the geographical limitations for evaluations, minimum qualifications of evaluators, and cost restrictions. The defined criteria must be met for the district to assume the evaluation's cost.

A more complete description of the IEE process and requirements is provided in the administrative interpretation section of this policy.

## 342.11 RULE - ADMINISTRATIVE INTERPRETATION

## I. Parent Rights/Obligations

The parents have a right to an independent educational evaluation (IEE) if they disagree with an evaluation completed by the district. Evaluation means procedures to determine whether the student has a disability, as defined by IDEA, is eligible for special education, and the nature and extent of the special education and related services the student needs. Parents have a right to obtain an IEE only after the district has completed its evaluation. The request must be received within one year from the date of the district's evaluation. Parents are entitled to only one IEE for each assessment performed by a district evaluator. The request must indicate the areas for which they are requesting an IEE, but they are not required to indicate their reasons. The parents have a right to select the evaluator if the individual meets the district's criteria.

## II. District Rights/Obligations

The district is permitted to have criteria that relate to the qualifications and location of the evaluator, and the maximum allowable cost of the evaluation. The district may recommend independent evaluators; however, parents are not restricted to the district's suggestions.

Upon receipt of a parent request for an IEE, the district will provide the parents with information and criteria for obtaining an IEE. The district shall, within a reasonable time period, in any event no later than twenty (20) business days, inform the parent as to whether the district will accept the IEE or request a due process hearing. If the parent obtains an IEE without notifying the district and subsequently requests payment, the district will determine if the evaluation constitutes an IEE eligible for public funds. An IEE that qualifies for public funds must dispute a district evaluation as to the existence of a disability and the nature and extent of special education and related services. If eligible, the district is required to request a due process hearing to defend its evaluation or reimburse the parents. If the district determines that it is not an eligible IEE, the district will provide the parents with a written rationale of its findings. The district is not obligated to request a due process hearing for evaluations that do not meet the requirements defined by § 300.502 of the federal regulations.

## III. <u>District Criteria</u>

## A. Notice of Receipt of Parent Request for IEE

The district, within twenty (20) business days, shall respond in writing to the parent request for an IEE.

### B. Location of Qualified Evaluators

Parents are restricted to using qualified evaluators within a 50-mile radius of Algoma, Kewaunee or Luxemburg-Casco. The district will consider other evaluators if parents can demonstrate unique circumstances that would justify a selection outside the geographical area.

#### C. Minimum Qualifications of Evaluators

Independent evaluators must be licensed by the Wisconsin Department of Public Instruction, or by an accredited organization or agency representing their profession. Occasionally, a private provider may have a vested interest in the outcome of an independent educational evaluation (IEE). The district reserves the right to proceed to due process over the issue of minimum qualifications of the independent evaluator where it appears that the evaluator has an interest in the outcome of the IEE.

In determining whether the evaluator has an interest in the outcome of the IEE, the district will consider factors including, but not limited to the following: nature of the relationship between the evaluator and the student/family; whether services were provided in the past or are currently provided; the type of services provided; the length of time between the cessation of previous services and generation of the IEE; and the contents of reports generated during the relationship between the student and the evaluator.

#### D. Maximum Allowable Cost

The maximum allowable cost will be consistent with the district's reimbursement for Medicaid. If there is not a comparable, then the maximum allowable cost will depend upon the required qualifications of the evaluator. If the evaluation requires a bachelor's degree, the hourly rate will be equivalent to a Class IV Step 8 (\$50/hr) position on the district's teacher salary schedule. If it requires a master's degree, the hourly rate will be equivalent to Class VIII Step 12 (\$60/hr).

In the event the evaluator is one not typically employed by the district, such as a medical doctor or clinical psychologist, reimbursement of costs will be limited to reasonable and customary charges as determined by the district in consultation with local providers and its insurance carrier.

The evaluator's attendance at IEP or other similar meetings regarding the student are not part of the IEE and will not be reimbursed unless the district makes the request.

The district will permit parents to demonstrate unique circumstances to justify an IEE that exceeds the maximum allowable cost.

Examples of maximum allowable evaluation costs include, but are not limited to those listed in Appendix A of this policy.

## E. Third Party Payments

The district reserves the right to request that parents use their insurance or other means of assistance to pay for the IEE if it does not result in any present or future financial cost to the parents.

Algoma School District Adoption Date: September 15, 2003

## 342.11 - APPENDIX A

## MAXIMUM ALLOWABLE COST FOR INDEPENDENT EDUCATIONAL EVALUATIONS

(September 1, 2003 - August 31, 2005)

Evaluation Area	Project Cost Range
Academic Achievement	\$ 80 - \$ 240
Assistive Technology	\$ 100 - \$ 250
Adaptive Behavior	\$ 172 - \$ 430
Hearing	\$ 200 - \$ 400
Intellectual/Cognitive	\$ 180 - \$ 630
Physical Therapy	\$ 200 - \$ 400
Occupational Therapy	\$ 200 - \$ 400
Social and Emotional	\$ 250 - \$ 500
Speech and Language	\$ 300 - \$ 500
Vision	\$ 60 - \$ 200

Costs above these maximal amounts will not be approved unless the parents can demonstrate that such costs reflect a reasonable and customary rate for such evaluative services or if the parents can demonstrate that there are other factors that make the extraordinary costs necessary.

Independent educational evaluators are required to provide an invoice that details the type of assessment, the names of the assessment instruments, and the specific time required to administer each instrument.

If the district incurs a cost associated with the IEE such as a teacher being required to complete a report for the independent evaluator, then the invoice payment will be reduced accordingly.

### 342.2 – RULE - SECTION 504 GUIDELINES

#### Introduction

Section 504 of the Rehabilitation Act of 1973 is the portion of the Act, originally authorized under Public Law 93-112, that states:

"no otherwise qualified individual with a disability in the United States shall, solely by the reason of her or his disability, be excluded from the participation in, or denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance."

Although the Rehabilitation Act of 1973, 29 U.S.C.s. 794, was passed many years ago, it has only been in the past several years that school districts in Wisconsin have become increasingly aware of the effect of "The Act" on the operations of school districts in educating children with disabilities. One reason for this lack of concern about "The Act" is that, prior to a congressional amendment in 1986, the practice had been to assume that the Education of the Handicapped Act, 20 U.S.C.s. 1400 et seq. ("EHA"), provided the exclusive avenue for relief to children with disabilities. In 1986, however, Congress overturned the decision of Smith v. Robinson, 468 U.S.C.s. 992 (1984) when it enacted legislation providing that children with disabilities still had available to them a remedy under the Rehabilitation Act.

Nothing in this title shall be construed to restrict or limit the rights, procedures, and remedies available under the Constitution, Title V of the Rehabilitation Act protecting the rights of children and youth with disabilities, except that before the filing of a civil action under such laws seeking relief that is also available under this part, the procedures in subsections (b) (2) and (c) shall be exhausted to the same extent as would be required had the action been brought under this part. 20 U.S.C.s. 1415 (f).

Clarification of key terms and concepts from the Rehabilitation Act of 1973, Section 504

## **Determination Parameters**

Determinations regarding Section 504 eligibility and the provisions of appropriate services are not based on administrative convenience, staff shortages, and/or financial constraints. Eligibility decisions regarding a particular student will be made on an individual basis.

The identification of students eligible for protection under Section 504 will be conducted at the building level. The Section 504 team, under the direction of the principal/designee (504 Coordinator), shall process referrals for students suspected of being handicapped under Section 504.

## Referral Process

Efforts will be made annually to locate and identify qualified persons with disabilities residing in the Algoma School District who are not presently receiving a public education. Notice of the availability of services and the types and location of services will be given not only to staff members and students, but also sent to nearby private schools, physicians, Public Health, Social Services, and other relevant agencies. The notice will identify the Section 504 Coordinator to contact in order to make a referral. 34 C.F.R.s. 104.8 and 104.32 (b).

Referrals for 504 may be made by classroom teachers, other school personnel, parents, outside agencies, or the students themselves. Each suspected qualified individual with a disability who has been referred to the school must be screened by the Pupil Services Team to determine what action, if any, is required in response to the referral.

The referral process will be initiated in response to any verbal or written request. Upon receipt of the request, a 504 Referral Form shall be completed by the referring teacher, parent, or support personnel. All referrals will be submitted to the principal/designee. All procedure safeguards will be maintained during the referral and screening process including written notice, confidentiality, and maintenance of the student's scholastic record.

## A. Initial Screening

Upon receipt of the referral form, the principal/designee will notify the parent/guardian of the referral and the scheduled Pupil Services Team meeting. A confidential folder will be established at that time.

Although parental permission is not required to conduct child study, every effort shall be made to ensure parental attendance, particularly when the parent/guardian is the referral source. Additionally, parents should be informed that the purpose for screening is to determine if further action is needed to meet their child's educational needs.

During the Pupil Services Team meeting, the team will determine if the child's needs should be further reviewed the Individuals with Disabilities Education Act (IDEA) process, through the At-Risk Program, or through Section 504 of the Rehabilitation Act.

## B. Pupil Services Team Membership

The Pupil Services Team shall consist of at least three (3) persons, including:

- \* Referral Source
- \* Other Participants as needed

#### C. Pupil Services Team

The team shall meet to review the information presented by the person who made the referral. The team will review all information available in the student's cumulative and confidential files and any other relevant materials such as work sample, reports of observation, medical records and anecdotal records.

## D. Pupil Services Team Findings

The following options are available to the team:

- \* Determine that there is no evidence of a disability
- \* Determine if additional information is required to make a decision, (i.e. single or multiple assessments)
- \* Determine that the child may be At-Risk and refer to the At-Risk

Coordinator.

- \* Determine that there is a suspected disability and refer for evaluation under Section 504 to the 504 Coordinator(principal/designee).
- \* Determine that there is a suspected disability and refer for evaluation under IDEA to the School Psychologist.

## E. Pupil Services Team Documentation

Documentation of meetings shall be contained in the student's confidential file and will include:

- \* A copy of the minutes of the meeting
- \* Due process rights given to parents
- \* Verification that a copy of the minutes and due process rights have been forwarded to parents if they were unable to attend.

#### **Evaluation Process**

Section 504 does not require specific evaluation components. A 504 Evaluation Team shall be formed and shall be composed of individuals who represent the various evaluation components and others as designated by the 504 Coordinator. Some of the members must be familiar with the student.

The evaluation process and/or components will be determined by the Evaluation Team based on the needs of the individual student. The goals of the evaluation process are to provide accurate data, to determine whether or not a disability exists, and to collect information that can be utilized to develop an appropriate accommodation plan if the student is determined eligible. The following guidelines will be followed during evaluation process.

#### A. Permission

Written approval should be obtained from the parent/guardian prior to any evaluations. Upon receipt of the signed form giving permission to evaluate, the 504 Coordinator will initiate assessment procedures by informing qualified personnel to begin evaluations. Permission will also be secured to obtain information from outside sources as necessary.

## B. Time Lines

The evaluation and identification process will be completed within sixty-five (65) administrative working days of the referral.

## C. Components

The following written components may be requested for use in determining eligibility:

- \* Medical
- \* Educational
- \* Others as appropriate to the students' suspected disability
- \* Psychological
- \* Socio-cultural
- \* Vocational

### D. Test Criteria

When conducting an assessment, evaluators will ensure that tests and other evaluation materials:

- \* Are not used in a manner that is culturally or racially discriminatory.
- \* Are provided and administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so.
- \* Have been validated for the specific purpose for which they are used, and are administered by trained personnel in conformance with the instructions provided by their producer.
- \* Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient.
- \* Tests are selected and administered so as to best ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child's aptitude or achievement level, or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual or speaking skills (except where those skills are the factors which the test purports to measure.
- \* No single procedure will be used as the sole criterion for determining an appropriate educational program for a child.

## Eligibility

- A. Following completion of necessary components, the 504 Coordinator will schedule a 504 Evaluation Team meeting. The Evaluation Team shall be composed of individuals who represent the various evaluation components and others as designated by the 504 Coordinator.
- B. The parents shall be encouraged to present information relevant to the identification issue for consideration by the 504 Evaluation Team.
- C. The 504 Evaluation Team is responsible for determining the following:

  - 2. the nature of the disability; and
  - 3. the effect of the disability on the student in the school setting.
- D. Minutes of the 504 Evaluation Team meeting shall be maintained, setting forth the justification for the decision, using the 504 Evaluation Summary Report.

Prior to the 504 Plan Conference, a copy of the 504 Evaluation Team Summary Report, 504 Due Process Rights, and a notification of the 504 Plan Conference will be forwarded to the parents.
- B. The 504 Plan will be completed within thirty (30) calendar days of the determination of 504 eligibility or triennial evaluation of students, at which time a 504 Plan Conference will be held.

- \* Anytime the student's parent(s)/guardian(s) or teacher makes a request; and/or
- \* Anytime significant change in accommodations are being considered and the evaluations are not current (older than 365 days).

- A. A student's need for assistive technology shall be determined on a case-by-case basis. If the IEP team determines that a particular assistive technology item is required for the student to be provided a favorable benefit from his/her education program, the technology must be provided to implement the IEP.
- B. Assistive technology may be provided as special education, related services, or supplemental aids and services for students with disabilities who are educated in regular classes.
- C. The District is responsible for evaluation in areas in which assistive technology may be a factor. Determination of need for assistive technology will be determined by the following criteria:

- g. Level 7 Fully English Proficient/Never Limited English Proficient
- 4. Student English proficiency assessment records shall be maintained by the District in accordance with state and federal laws and District student records policies and procedure. Reports regarding ELL students shall be made to the DPI as legally required.

# B. Assessing Academic Achievement

- 1. Decisions regarding academic performance assessment shall be made and documented on an individual basis for each ELL student.

  Assessment decisions shall be made by the Director of Pupil Services or designee, principal and classroom teacher and communicated to the student's parent(s)/guardian. All communications to parents/guardians of ELL students shall be given in such manner as to provide understanding of the information. They should be provided in English, the parent/guardian's native language or any other means to convey the required information.
- 2. An ELL student may not be exempted from academic assessments based on their ELL status. The District shall administer a state-required test to an ELL student unless a determination has been made that the results of the test, with allowable accommodations made for the student as needed, will not be a valid and reliable indicator of the student's academic knowledge and skills. If an ILL student is exempted from taking a state-required test, he/she shall be administered a DPI-approved alternative assessment.
  - a. Except as specified below, students at English proficiency levels 1 or 2 as outlined above shall participate in an alternative assessment even if they participate in a state-required test.
    - (1) Students at English proficiency levels 1 or 2 who have attended school in first grade or any higher grade in the United States, not including Puerto Rico, for three or more full consecutive school years shall participate in academic assessment of reading or English language arts using tests written in English.
    - (2) The District may continue, for no more than two additional consecutive school years, to assess a student described in (1) above with an alternate assessment, rather than the state-required tests, if the District determines that the student has not reached a level of

English language proficiency sufficient for the tests written in English to yield valid and reliable information about what the student knows and can do. This determination shall be made on a case-by-case basis.

- b. Students at English proficiency levels 3 through 5 as outlined above shall participate in a state-required test but may also participate in an alternative assessment.
- c. If an ELL student participates in a state-required test, the District shall provide testing accommodations for the student if they are needed. Any accommodations made shall maintain the validity of the test. Testing accommodations may include, but are not limited to the following: providing the assistance of a qualified translator to translate instructions or read items from tests that do not assess English language competency; providing small group or individual testing opportunities; providing more practice tests or examples before the actual test is administered; allowing ELL students to use dictionaries or other educational aids while taking the test unless this use would invalidate the test; and allowing ELL students as much time as necessary to complete the test.
- 3. Student test/alternative assessment results shall be communicated to the Student's parent/guardian and to the DPI as required by law.
- 4. ELL student test results shall be used consistent with District policies when making instructional, promotion and graduation decisions. Test results shall not be used as the sole criterion in exiting ELL students from a bilingual-bicultural education program or in determining grade promotion, eligibility for courses or programs, eligibility for graduation or eligibility for postsecondary opportunities. Exemption of an ELL student from taking a state-required test may also not be used as the sole criterion for making such determinations.

An ELL student will be provided educational program assistance and/or services as appropriate and necessary to help the student improve his/her English language skills and academic performance.

# 342.62 – PROGRAMS AND SERVICES FOR ENGLISH LANGUAGE LEARNERS

The Board recognizes that within the district there may be students whose primary language is not English. With that in mind, the Board shall provide appropriate services for district students who possess limited or no command of the English language. The purpose of these services will be to help students acquire English language skills that will enable them to function successfully in an all English classroom and to meet established academic standards.

English language learner students shall be identified, via the district designed <a href="Home Language Survey">Home Language Survey</a>, as part of the school enrollment process. State law defines an ELL student as a student whose ability to use the English language is limited because of the use of non-English language in his/her family or in his/her daily nonschool surroundings, and who has difficulty with reading, writing, and speaking or comprehending in English within the academic classroom setting. Once ELL students are identified, their English proficiency shall be assessed; they shall be classified according to their English proficiency level, and placed in an appropriate educational program.

Specialized instruction materials and techniques designed to teach English to speakers of other languages shall be used in the district. An ELL student or small group of students may work with a qualified teacher/tutor to develop their English language skills at school and/or home. The degree of curricular and instructional modification, type of support services and their duration shall be determined individually and be based on student need. If a sufficient number of ELL students identified are of the same language group to meet statutory requirement (ss 115.97); the Board shall establish and implement a bilingual-bicultural education program as required by state law.

The District shall assess the English proficiency and academic progress of ELL students in accordance with legal requirements and established District procedures. Decisions regarding the administration of state-required tests to ELL students shall be made on a case-by-case basis. Testing accommodations may be made based on student needs, provided the validity of the test is maintained. The District shall administer state-required tests to an ELL student unless a determination has been made that the result of the test, with allowable accommodations made for the student as needed, will not be a valid and reliable indicator of the student's academic knowledge and skills. Any ELL student exempted from taking a state required test shall be administered an alternative assessment approved by the Department of Public Instruction. The results of both state-required tests and alternate assessments shall be used consistent with District policies in making instructional, promotion and graduation decisions. Test results may not be used as the sole criterion in re-classifying an ELL student from bilingual-bicultural educational program or in determining grade promotion, eligibility for courses or programs, eligibility for graduation or eligibility for participation in postsecondary education opportunities. Exemption of an ELL student from taking a state-required test may also not be used as the sole criterion for making such determinations.

Parents/guardians of ELL students shall be notified of student testing arrangements and of educational programs, services and parental involvement strategies available to help their children improve their English language skills and academic achievement. These notifications shall be made consistent with legal requirements and in such manner as to ensure that the student's parent/guardian understands them.

# Reclassification of ELL Student (Exiting). In order for a student to no longer be classified limited English proficient, they will (per ESEA Bulletin No. 07.02):

- 1. Understand and speak English in relation to the full range of demands of the classroom and the academic language needed to succeed;
- 2. Read and comprehend English as evidenced by successful classroom performance and average district score on standardized achievement tests;
- 3. Write English as evidenced by successful classroom performance and average district scores on standardized achievement tests; and
- 4. Meet or exceed district guidelines in their academic subjects.

# In addition, the student:

- Is in the fourth grade at a minimum
- Has attained an English language proficiency (ELP) advanced level 5
- Two or more additional pieces of evidence of ELP must be evaluated and kept on file in the district for two additional years
- Parents and teachers agree that the student has reached full English proficiency

In general, when the student scores a Level 6.0 composite score on the ACCESS for ELLs the student is exited from the English Language Proficiency Program.

# Re-Entry into ELP Program

1. If the need to reverse a reclassification decision occurs, student will be allowed to reenter a bilingual or ESL program if there is evidence that the reclassification decision was premature (per ESEA Bulletin No. 07.02).

# 345.5 - Fourth And Eighth Grade Advancement Policy

The philosophy of the Algoma School District is for all students to achieve optimal learning based on high expectations and considerations of their abilities and needs. The School Board recognizes that students have diverse capabilities, interests, and individual patterns of growth and learning. Because the promotion of students from fourth grade to the fifth grade and from the eighth grade to the ninth grade is affected by State Statutes (ss 118.33)(6)(a), this grade advancement policy applies to such promotions. Other district policies relating to the promotion of students apply if they are not inconsistent with this policy. Beginning on September 1, 2002, no student may be promoted from the fourth grade to the fifth grade and eighth grade to the ninth grade unless the student satisfies the criteria for promotion in this policy.

The School District of Algoma believes that exceptional educational needs (EEN) students should have opportunities to acquire and demonstrate competence in various academic areas. These opportunities may be through achievement tests, class work, or other means as deemed appropriate by the Individual Education Program.

The Individual Education Program (IEP) process will serve as the vehicle for making decisions about the demonstration of academic competence for each individual EEN student. The IEP will be used to plan the EEN child's educational program and the EEN child's participation in the district testing programs. The IEP will clearly address the specific testing program which each EEN child will follow and how the EEN student will demonstrate competence in academic areas.

Any Wisconsin student with limited English speaking (LES) as defined in sec. 115.955(7) Wis. # 347.1 EXHIBIT A- DIRECTORY INFORMATION RELEASE

Dear Parent:

In order to comply with the Federal Educational Rights and Privacy Act (FERPA), we are asking that you sign the following statement which allows the Algoma School District to release "Directory Information" to organizations such as newspapers and colleges.

Under the Federal Educational Rights and Privacy Act (FERPA), school districts and school district staff may not disclose a student's education record without the consent of the student's parents, except in certain circumstances.

Of course, schools and school districts must routinely release some student information in the normal course of their operations. FERPA thus allows schools to disclose information contained in a student's education record which would not generally be considered harmful or an invasion of privacy if disclosed, but only after the school first gives notice to the parents and grants them the opportunity to prohibit the information's release This information – "directory information" under FERPA – includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, height and weight of athletic team members, dates of attendance, degrees and award received (this would also include Honor Roll, Top Ten Seniors, Valedictorian, Salutatorian and other such awards), and the most recent previous educational agency or institution attended.

Please sign and return this form **only** if you **<u>DO NOT</u>** want the directory information disclosed to the media, and college representatives. If you do not return this form to the school we will assume that you are authorizing Algoma School District to release directory information about your student.

If you have any questions about FERPA please feel free to contact your child's building principal at the following numbers.

When selecting instructional materials for use in the schools, consideration shall be given to the following objectives:

# 361 – RULE - GUIDELINES AND PROCEDURES FOR THE SELECTION OF INSTRUCTIONAL MATERIALS

#### I. Materials

Books, textbooks, and non-book materials (hereafter referred to together as "materials"), selected for the libraries and comprehensive collection that services the needs of the individuals of the school community for both academic and recreational purposes.

Materials which are helpful in developing critical thinking, objective evaluation, and aesthetic appreciation suitable to the various maturity levels, abilities, and interests of students are provided in the libraries, classrooms, and other areas of the District schools.

Gift materials are accepted only if they meet selection criteria and if the conditions of acceptance are agreeable to the District.

#### II. Selection

Although the Algoma School Board is legally responsible for the operation of the school, the responsibility for the selection of instructional materials is delegated to the certificated Library/Media personnel, the classroom teachers, and other professional members of the staff.

#### III General Criteria

- A. Guidelines for the evaluation and selection of materials are listed. Materials should:
  - 1. Be aligned with the district's curricular standards and benchmarks.
  - 2. Represent artistic, historic, and literary qualities.
  - 3. Reflect problems, aspirations, attitudes, and ideals of a society.
  - 4. Contribute to the objectives of the instructional program.
  - 5. Represent differing viewpoints on controversial subjects.
  - 6. Provide authoritative accuracy, reflecting a valid and reliable viewpoint.
  - 7. Provide balance and integrity in the presentation of controversial questions.
  - 8. Have appealing content and style to suit the interests and abilities of users.
  - 9. Provide creativity and imagination, combined with literary vitality to give a true picture of life and the world.
  - 10. Technical materials should:
    - a. encourage technological literacy
    - b. reflect the most updated technology available.

# B. Magazines

Magazine subscriptions are reviewed and revised annually by the Library/Media staff. Periodicals are purchased because of their overall reputation and are not rejected because of an occasional article, which may be offensive. This review should make it possible to remove those periodicals, which undergo a radical change of editorial policy not in keeping with the needs of the school.

#### C. Sex and Profanity

The fact of sexual incidents or profanity appearing in a book should not automatically disqualify it. Rather the decision should be made on the basis of whether the book presents life in its true proportions, whether circumstances are realistically dealt with, and whether the book is of literary value. Factual material of an educational nature on the reading level of the students, or for teacher use, should be included in the school collection.

#### IV. Procedures for Selection

In selecting materials, the certified Library/Media personnel, classroom teachers, and other professional members of the staff will:

- A. Evaluate the existing collection.
- B. Assess curricula needs.
- C. Examine materials (when possible) and consult reputable, professionally prepared selection aids

Recommendations for acquisition will be solicited from faculty and students.

Gift materials should be judged by the criteria listed in the preceding section and should be accepted or rejected on the basis of those criteria.

It should be understood that selection is an ongoing process which should include the removal of materials no longer appropriate and the replacement of lost and worn materials still of educational value.

#### **362 - INTERLIBRARY LOAN POLICY**

Algoma School District Interlibrary Loan (ILL) is a service that supports the instruction, research, students, staff, and faculty. It provides access to library materials not available locally. This includes articles, books, and multimedia.

Items for personal interests should be obtained through the Algoma Public Library or other public libraries in the area where the requestor resides. The Algoma School District reserves the right to refuse requests that are not within the scope of Algoma's research, teaching and learning missions.

- No library is required to loan materials to Algoma High School library patrons. Whether or not library materials are loaned is strictly up to the discretion of the lending library's policies and staff judgment.
- Lending libraries may charge. The Algoma School District ILL absorbs all costs of
  obtaining the requested interlibrary loan items up to a certain amount. If the cost of the
  requested item will exceed this amount, ILL staff will contact the requestor before
  proceeding with the request since the requestor will be expected to pay for charges
  above ILL's limit.
- The lending library also may place restrictions on its materials, such as "in library use only", or may later indicate that the materials must be returned sooner than the original due date. The ILL requestor will be expected to observe the policies set by the lending library.
- When possible, articles will be sent to the requestor via electronic delivery.

# Eligible Users

Current faculty, staff, and students may use Algoma's School District interlibrary loan service by completing the appropriate request forms. Others may be able to request similar service from the Algoma Public Library.

## **Procedures**

#### Step 1

Determine that the LLC does not own the material you need.

- For books, videos:
  - Search the Algoma Library Catalog from the Library Homepage.
- For journals, magazines, or newspapers:
  - o Search the Algoma Library Catalog from the Library Homepage.

#### Step 2

Determine if the item may be obtained through universal borrowing (UB) from any of the Algoma libraries.

- Using the Algoma School District Website, click on the Other Catalogs button at the top of the screen, choose OWL Borrowing Libraries, and search.
- If available from an OWL library, make your request directly in OWL.

#### Step 3

Notification to the requestor and/or check the status of a request:

- All notification and requests for additional information will be sent via e-mail to the requestor's official Algoma e-mail account. This e-mail may contain actual links to requested electronic documents.
- The requestor will be notified about requests that cannot be filled and provided with the reason why not.
- Link to Alexandria to check the status of request.

#### Step 4

Methods of delivery or availability of requested items for retrieval:

- An e-mail containing a direct link to an electronic document (articles or chapters) with instructions about how to retrieve the item is sent to the requestor's Algoma e-mail account.
- An e-mail, sent to the requestor's Stout e-mail account, indicates that the requestor has loans or photocopied materials that are available for pick-up at the Library.

#### Step 5

Local pick up and return of ILL materials:

- Location: Circulation Desk of the Library.
- When: During any hours the library is open.
- ILL Items are not considered returned unless they are returned to the Algoma High School Library Circulation Desk.
  - o Do not return materials obtained through Algoma's ILL to other libraries.
  - Do not return ILL materials to the LLC book drops.

#### Limitations

Materials which are generally not available through ILL:

- Items owned by the Algoma LLC but temporarily in use.
- Textbooks used at Algoma.
- Whole volumes or issues of periodicals.
- Newspapers and manuscripts, unless available on microform.
- Some AV material and computer software programs.
- Genealogical, heraldic and local history material.
- Any material that a lending library chooses not to circulate.

# When Requested Items Might Arrive

Requests that have complete and correct information will usually be sent out to lending libraries within one working day. A large number of simultaneous requests may be assigned priorities and sent out over several days.

The requestor will be notified promptly if and why ILL cannot fill a request.

Most items arrive within 5 to 14 days or sooner if they are sent to ILL electronically by the lender. Interlibrary loan patrons are notified of arrival via email.

# Cost

- Each request generates a substantial cost that is absorbed by the Library Learning Center. The LLC and many Wisconsin libraries belong to WILS (Wisconsin Interlibrary Services). Material borrowed from WILS members incurs no cost to you. Material that is not available through WILS can usually be borrowed from out-of-state libraries, if the requestor desires, but any charges by a lending library must be paid by the requestor. Typical charges are from \$6 to \$10; firm estimates cannot be obtained in advance.
- Care of the ILL material is the total responsibility of the borrowing patron and fees will be charged for lost or damaged items.

- \*engage in electronic field trips

The skills required for using the Internet are vital to the long term success of users when they enter higher education and the work force. The School District of Algoma (SDOA) is pleased to offer access to the Internet to enhance and support student learning.

SDOA is aware that the Internet is an unregulated communication environment in which information changes constantly, and that some of this information may be inappropriate for users, based on age and/or developmental levels. SDOA educators will take an active role in ensuring that students and their parents are aware of the individual user's responsibility in using the Internet resources in an ethical and educational manner. The SDOA's goal is to provide individual users with the understanding and skills needed to use the Internet in ways appropriate to their individual educational needs.

In striving to guarantee the appropriate use of the Internet resources, the district has developed the following guidelines:

- \*The Internet will be used for curriculum support.
- \*All computers which allow Internet access will be in supervised areas classrooms, computer labs, and media centers.
- \*Every effort will be made to guide the users to appropriate areas of this global resource. This may not prevent the knowledgeable, computer-literate user from accessing inappropriate materials, but it does mean that to do so is a conscious choice on the part of the user.

- \*Parents/guardians who want their children to use the Internet resources must sign the SDOA Internet User Contract.
- \*Users will be held responsible for their own actions, and disciplinary action will be take if the resources are used inappropriately.

#### 370 - CO-CURRICULAR ACTIVITY PROGRAMS

Co-curricular activities shall be offered to students in the schools in the district. Participation in co-curricular activities shall be in accordance with established school and activity rules. The Board encourages the full participation of elementary and middle school students in co-curricular and recreational programs and activities. For the purposes of Board policy, "full participation" means fair and equal participation to the extent that the budget, facilities or type of activity allows. Financial support for co-curricular activities ends at the state level.

The administration shall be responsible for the assignment of advisors and coaches for supervision of all co-curricular activities.

The School District shall not discriminate in admission to any program or activity, standards and rules of behavior, disciplinary actions, or facilities usage on the basis of sex, race, color, religion, national origin (including LEP), ancestry, creed, pregnancy, marital status, parental status, sexual orientation or physical disability, mental disability, emotional disability or learning disability/handicap or homeless status. #### 374 - STUDENT FUNDRAISING ACTIVITIES

The Board wishes to protect district students, employees, parents and citizens from undue pressure and/or embarrassment that can potentially occur during fundraising activities. Particular care, especially at the elementary level, will be given to minimize the pressure on students to solicit or contribute to fundraising activities.

Fundraising by student groups or organizations shall be:

- 1. Kept at a responsible level so as not to become a financial burden on the community.
- 2. Based on a pre-planned program of objectives; and
- 3. Carried out only with the specific approval of the appropriate building principal and the district administrator.
- 4. Fundraising activities shall center on the needs of the organization of group of students.

Students shall not be required to participate in any campaign to raise funds for any purpose.

Students under the age of 12 shall be permitted to participate in fundraising activities provided written approval has been obtained from the student' parent/guardian. Students under the age of nine or each group containing one or more students under the age of nine must be physically accompanied by a parent or a persona at least 16 years of age when working in a fundraising activity.

Each fundraising or sales activity must be approved in advance by the building administrator, who is urged to restrict the number of such activities. Any fundraising activity proposed by an organization from outside the school(s) shall require approval of the superintendent of schools or his/her designee. Class time may not be used for fundraising by an organization outside the school(s). A teacher may not use any curricular or video materials whose primary purpose or organizational purpose is fundraising. If any fundraising activity is contained in curricular materials, the class time must be present on the curricular content, not the fund raising. Fundraising may not be conducted during instructional time. Participation in any approved fundraising activity shall in every respect be voluntary.

For each approved fundraising activity conducted in a school, excepting those conducted by parent organizations the building administrator shall maintain separate accounts and records of collections, earnings and expenditures. Expenditures should supplement the educational program of the district.

#### 377.1 - GUIDELINES FOR STATE TOURNAMENT ATTENDANCE

Definition of competing and not-competing:

Competing members of a participating team include all contributing team members and not just the participants putting on the team uniform. Statisticians, managers, and other students that have been an active part of the functioning of the team for the entire season, are considered competing members of the team. Those not competing are students that participated in the activity, football, basketball, track, etc. that were involved at the freshman or varsity reserve level and did not, on a regular basis, suit up for the level represented by the competing team. Team coaches and school athletic director will confer to decide which definition a student fits if there is a question.

  - G. A non-competitor may not receive permission to attend the State Tournament unless all of the above are met and in accordance with the time limits specified. Last minute requests will not be honored.
